

our strenghts

- study and development
- manufacture and/or assembly
- quality control

studydevelopment

our team is qualified to carry out all projects, from the initial design to the finished product.

you can rely on our technical knowledge to design both structures and electronics that meet your requirements and standards.

we have the ressources and equipment to test internally and control the quality of the products developed and manufactured.

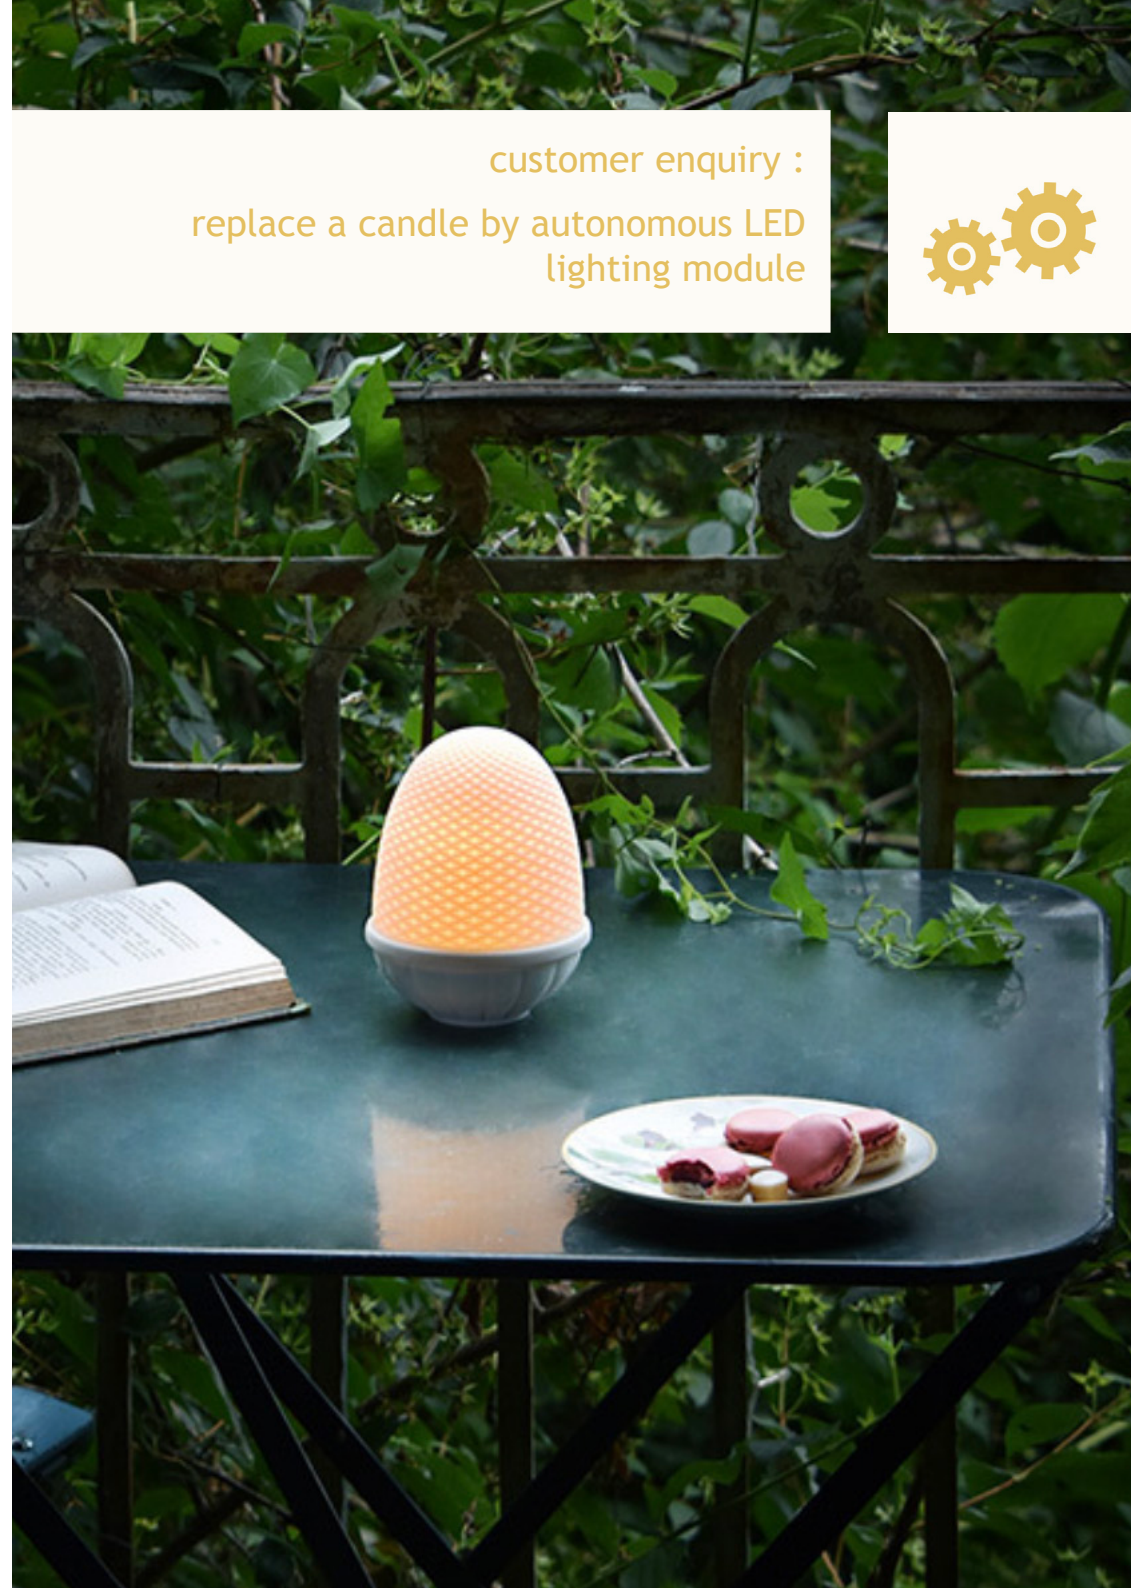

jadelink thinks light as a technical and aesthetic tool.

Lampion LED
model and porcelain by
BERNARDAUD

developed and manufactured by
jadelink

customer enquiry :
replace a candle by autonomous LED
lighting module

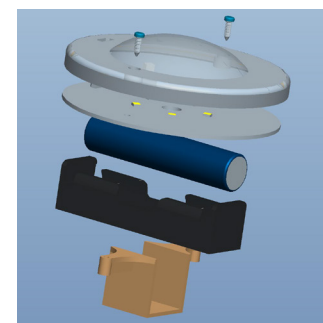

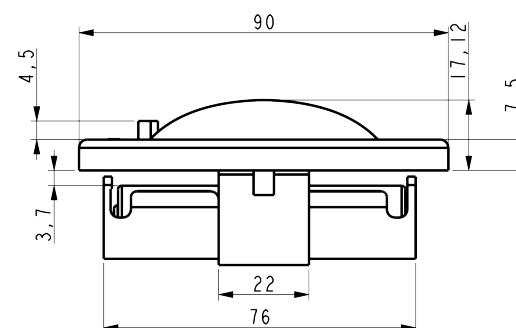

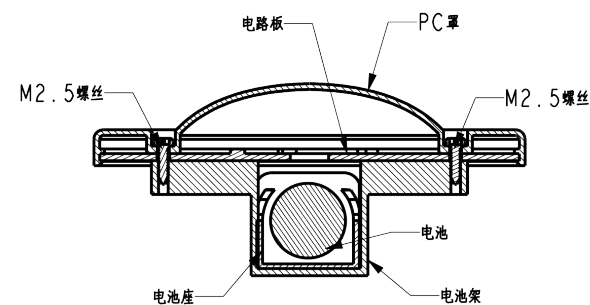

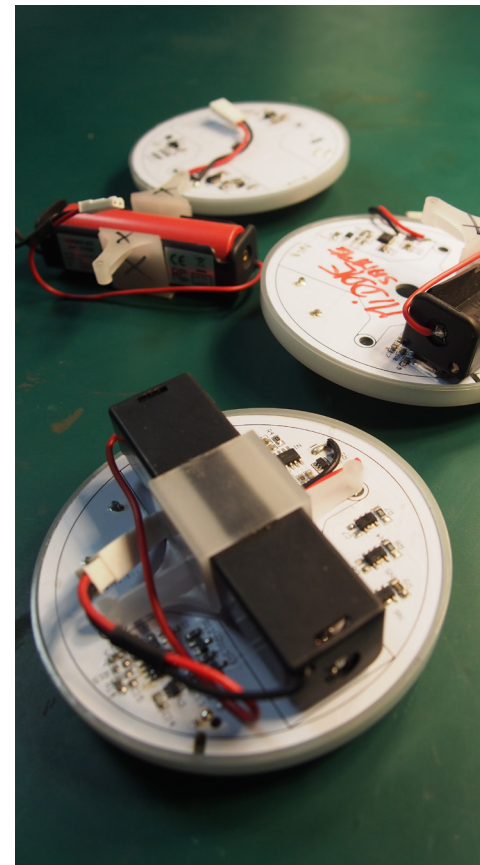

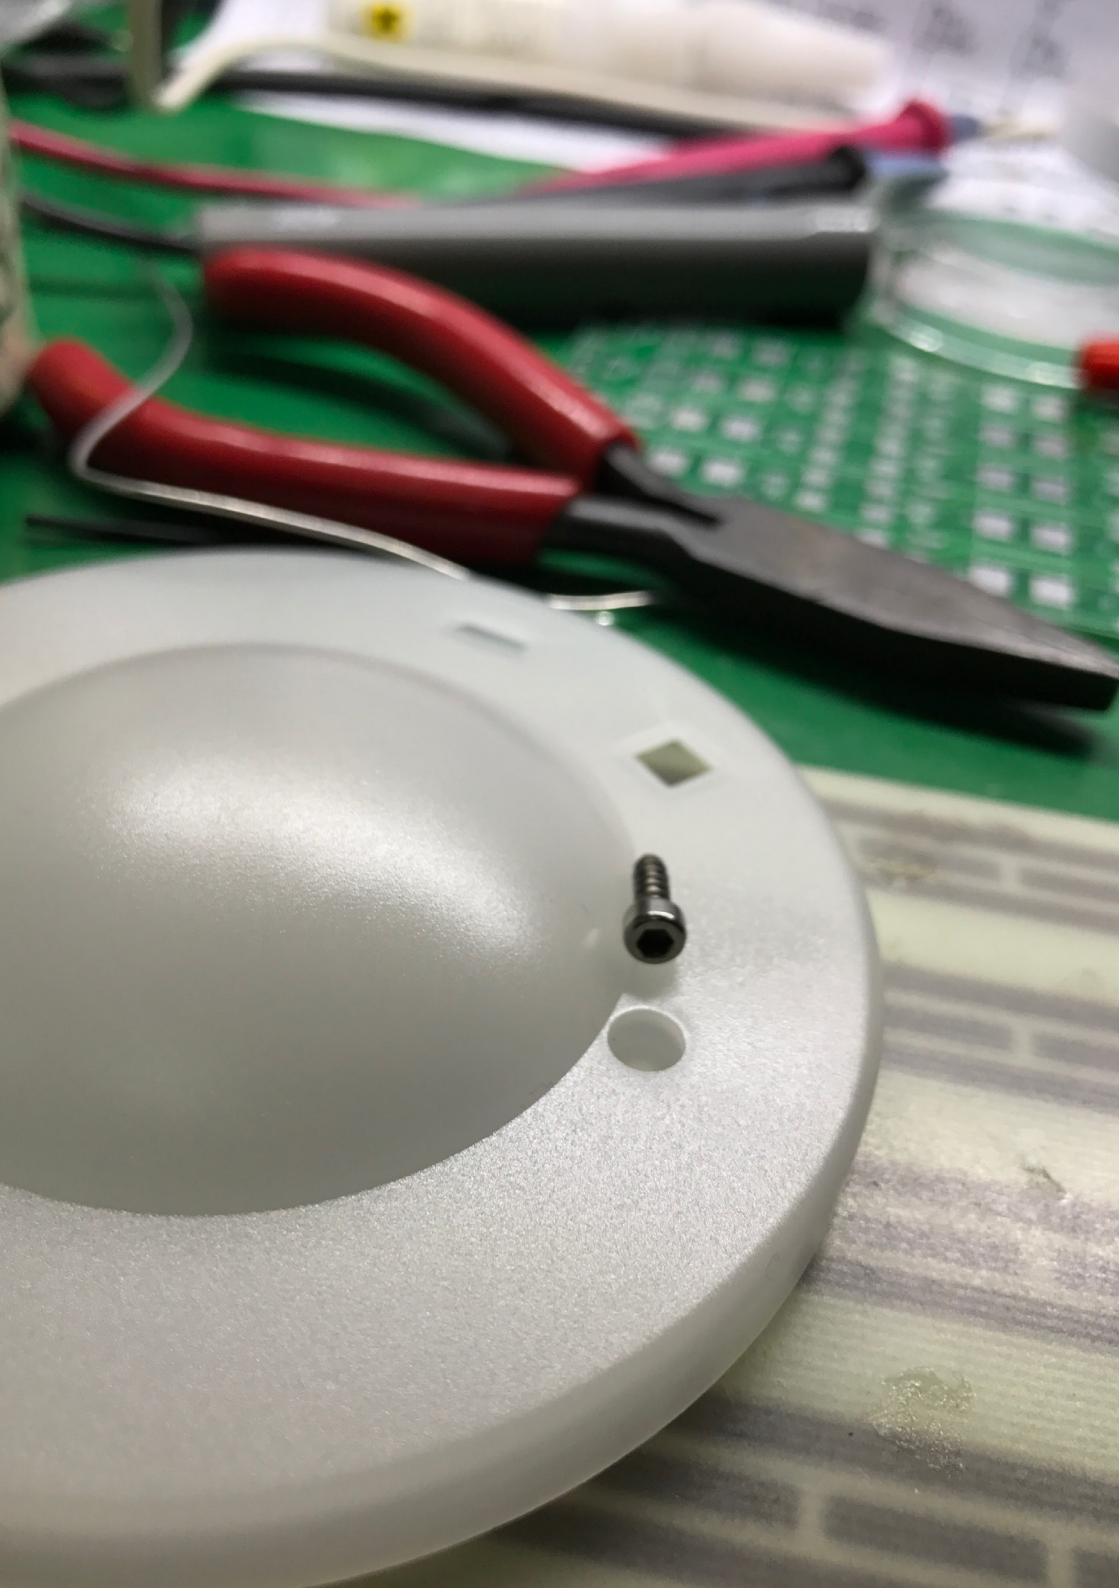

customer requirements

- autonomy from 6 to 8h
- USB charging output
- 3 levels of lighting intensity
- ignition and tactile control
- high-performance LEDs
- custom-made polycarbonate cover

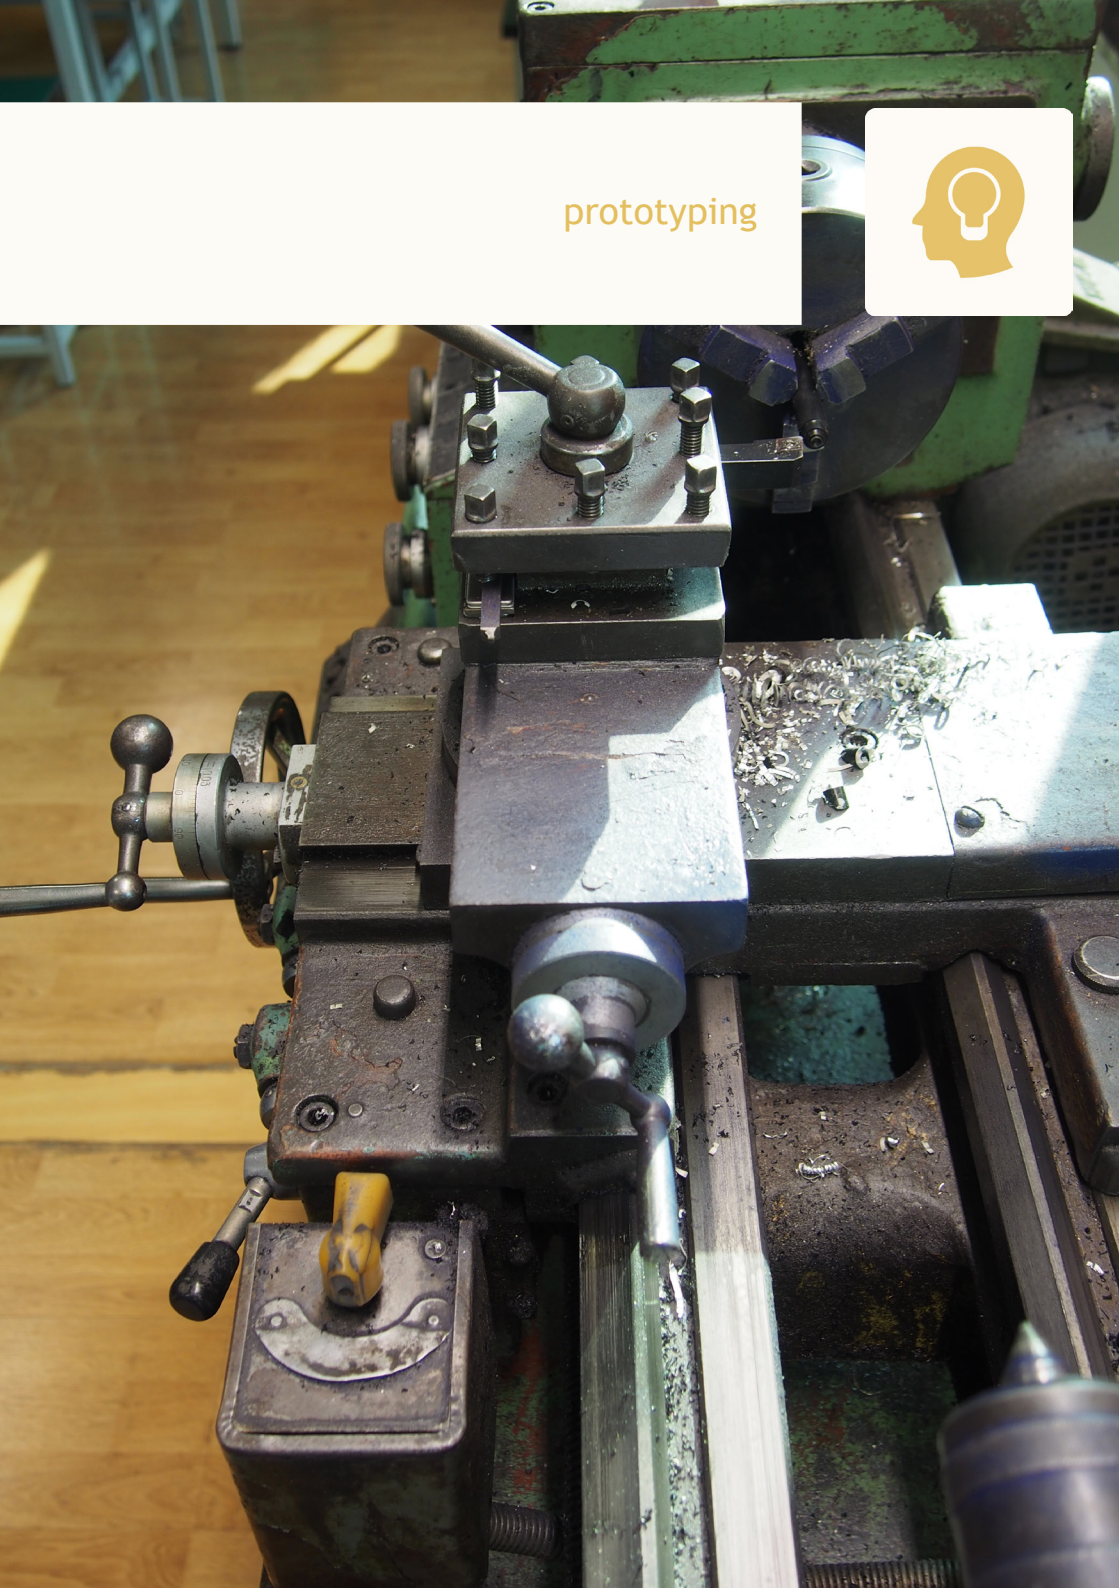

2D drawings
3D modelings

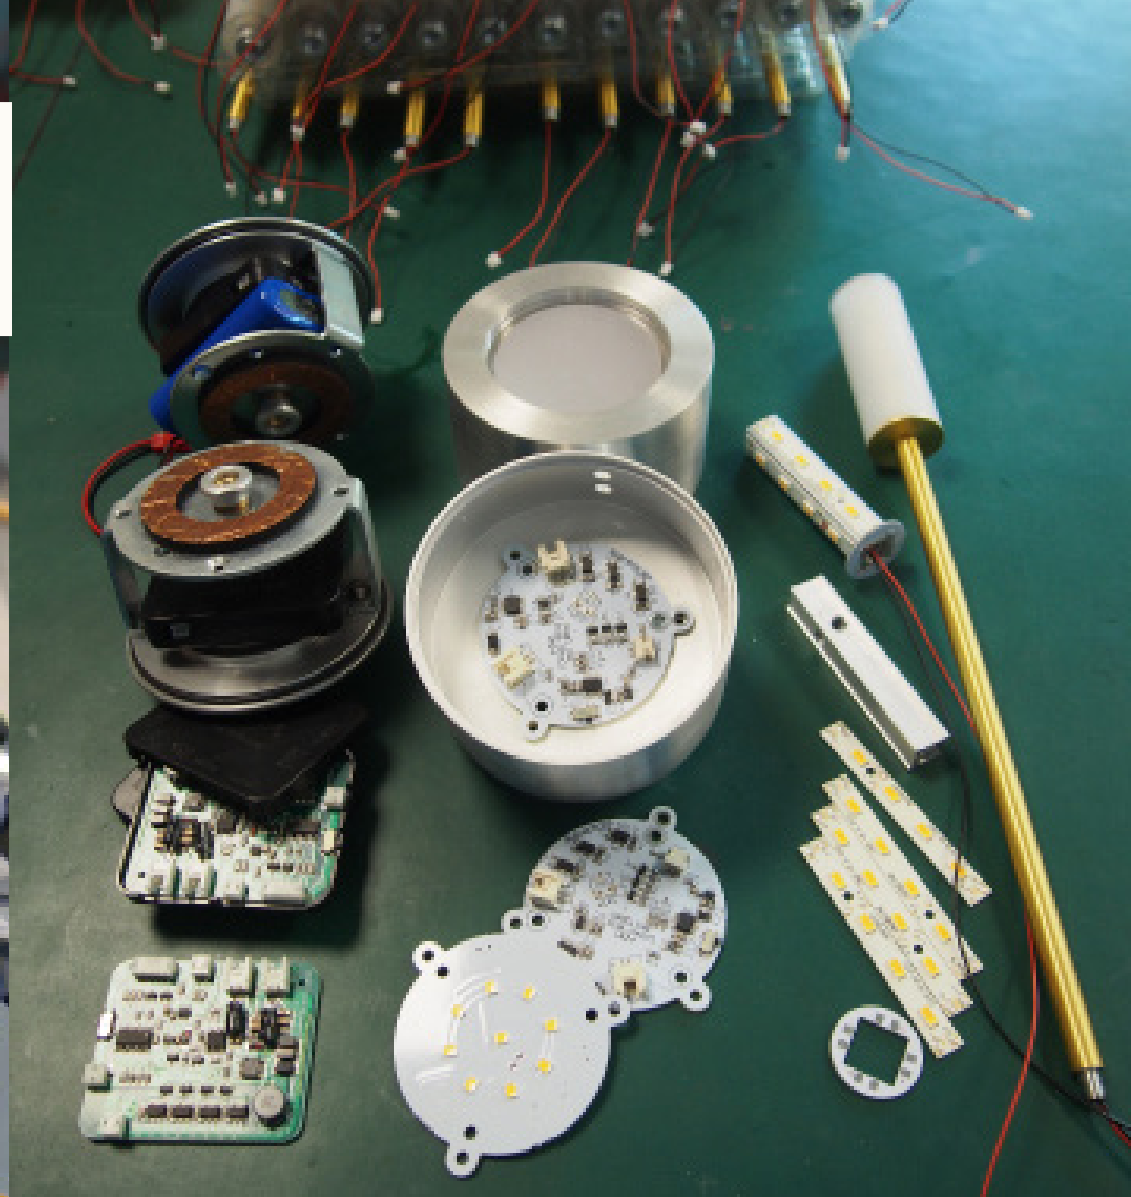

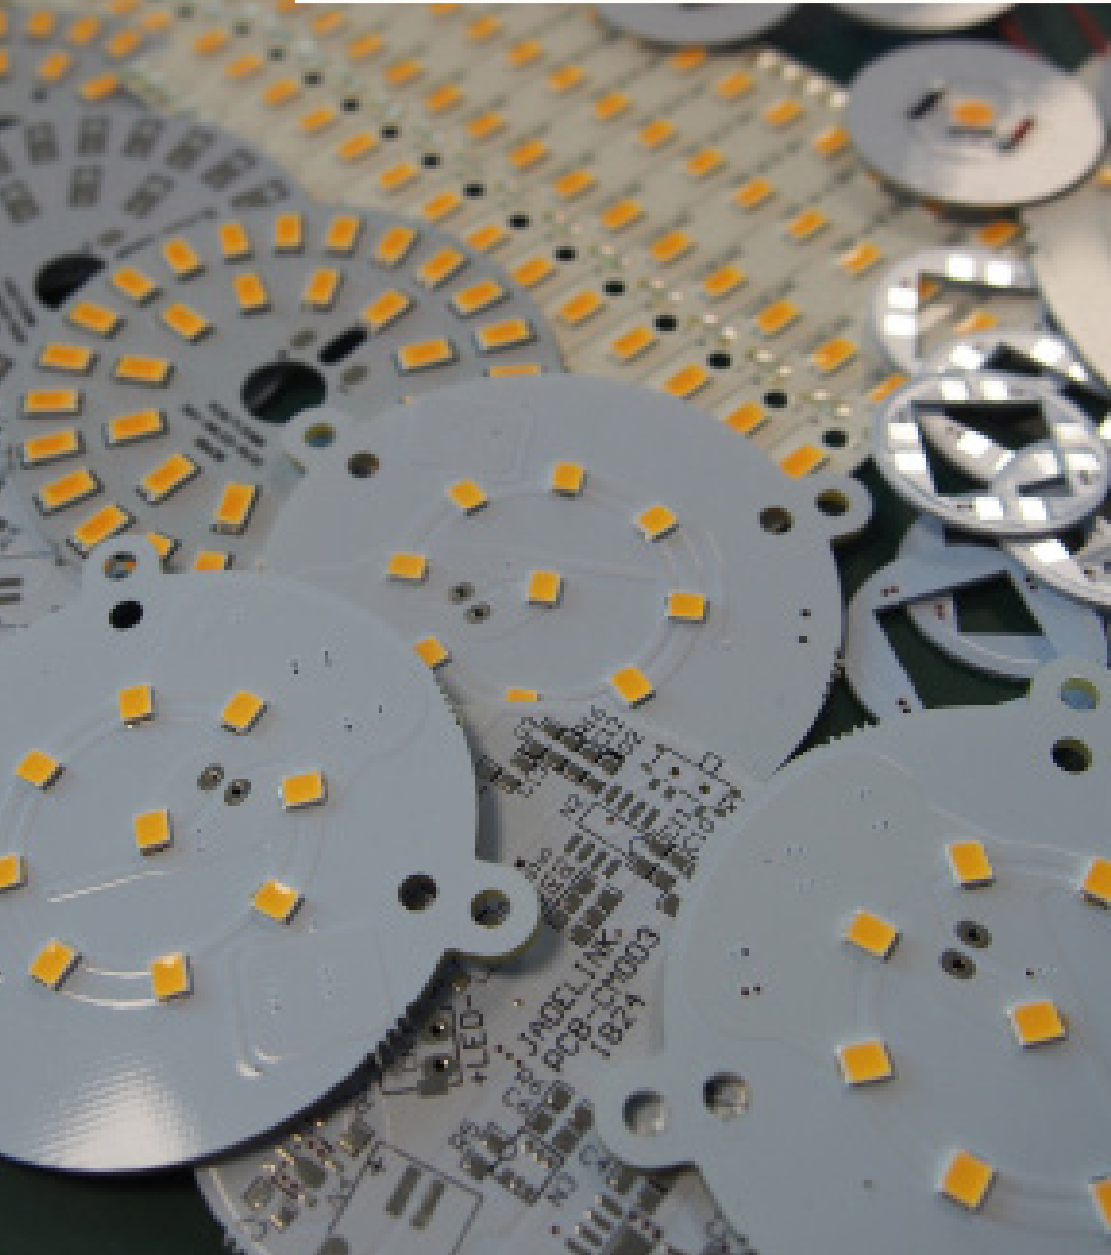

prototyping

development and manufacturing of structural
parts and electronic components

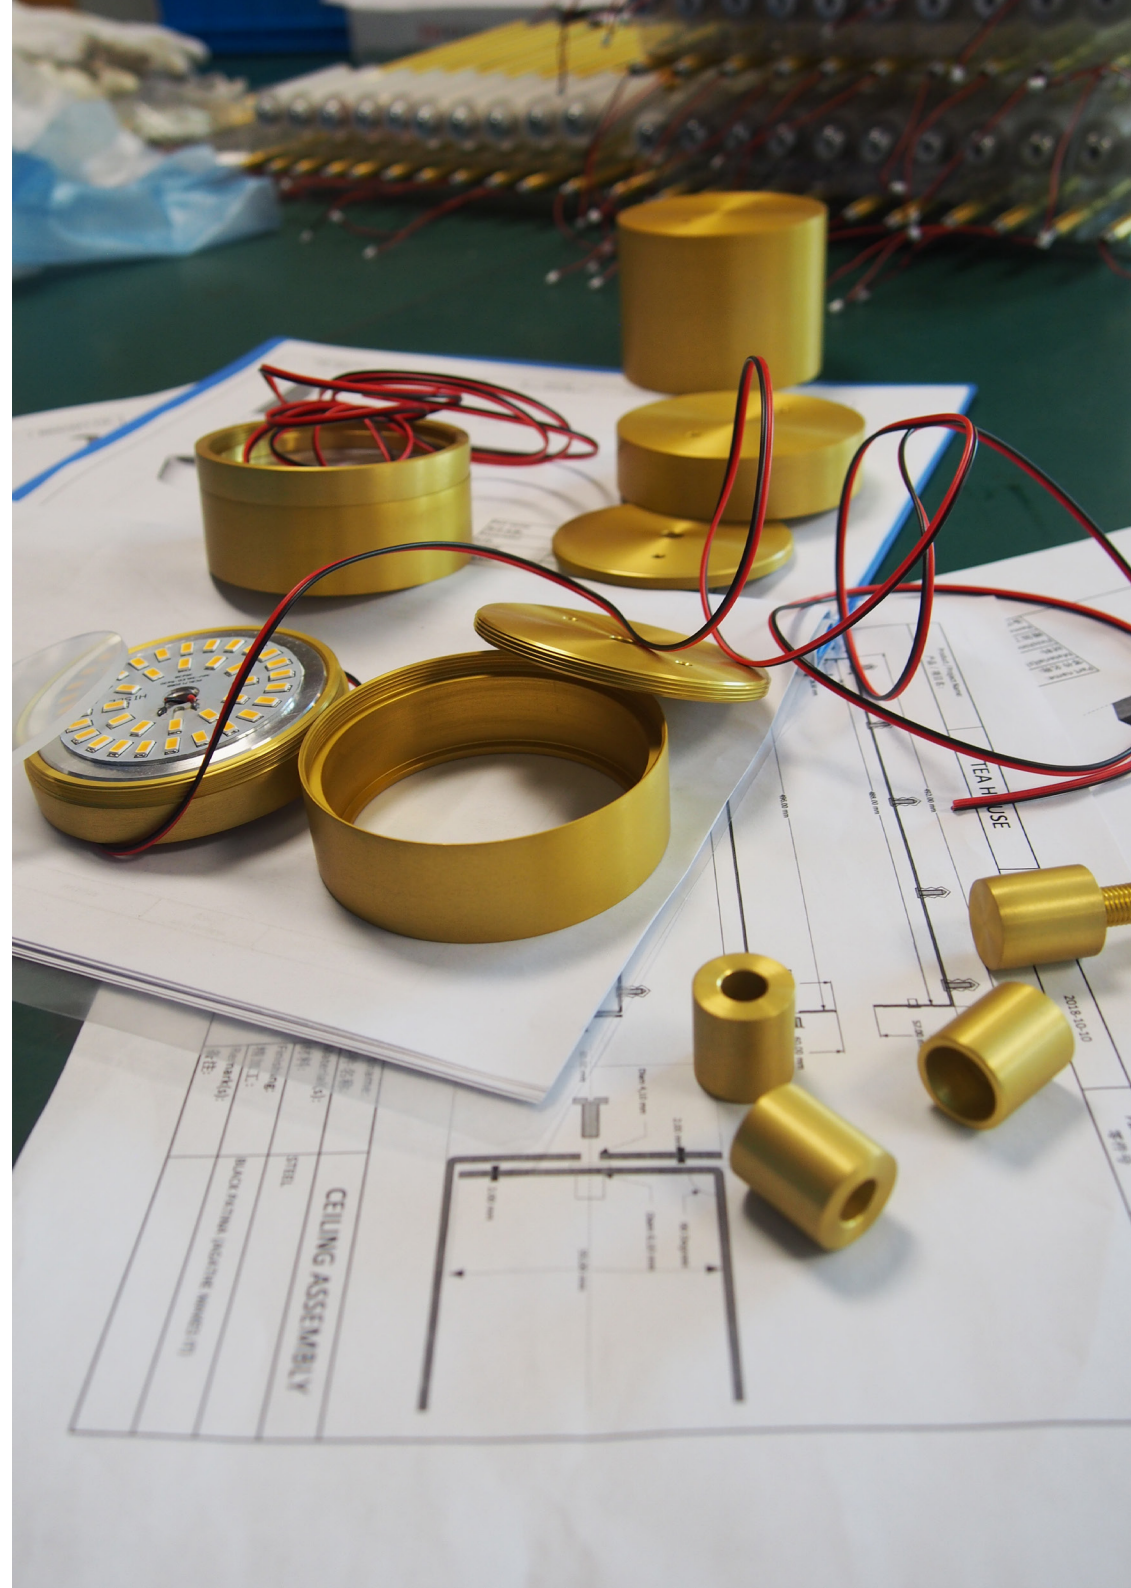

creation and optimization

create and transpose functions already developed
and integrate them into new fixtures

whether small or large series, or even one of a kind, we adapt design and finished or semi-finished products manufacturing to suit the customer requirements.

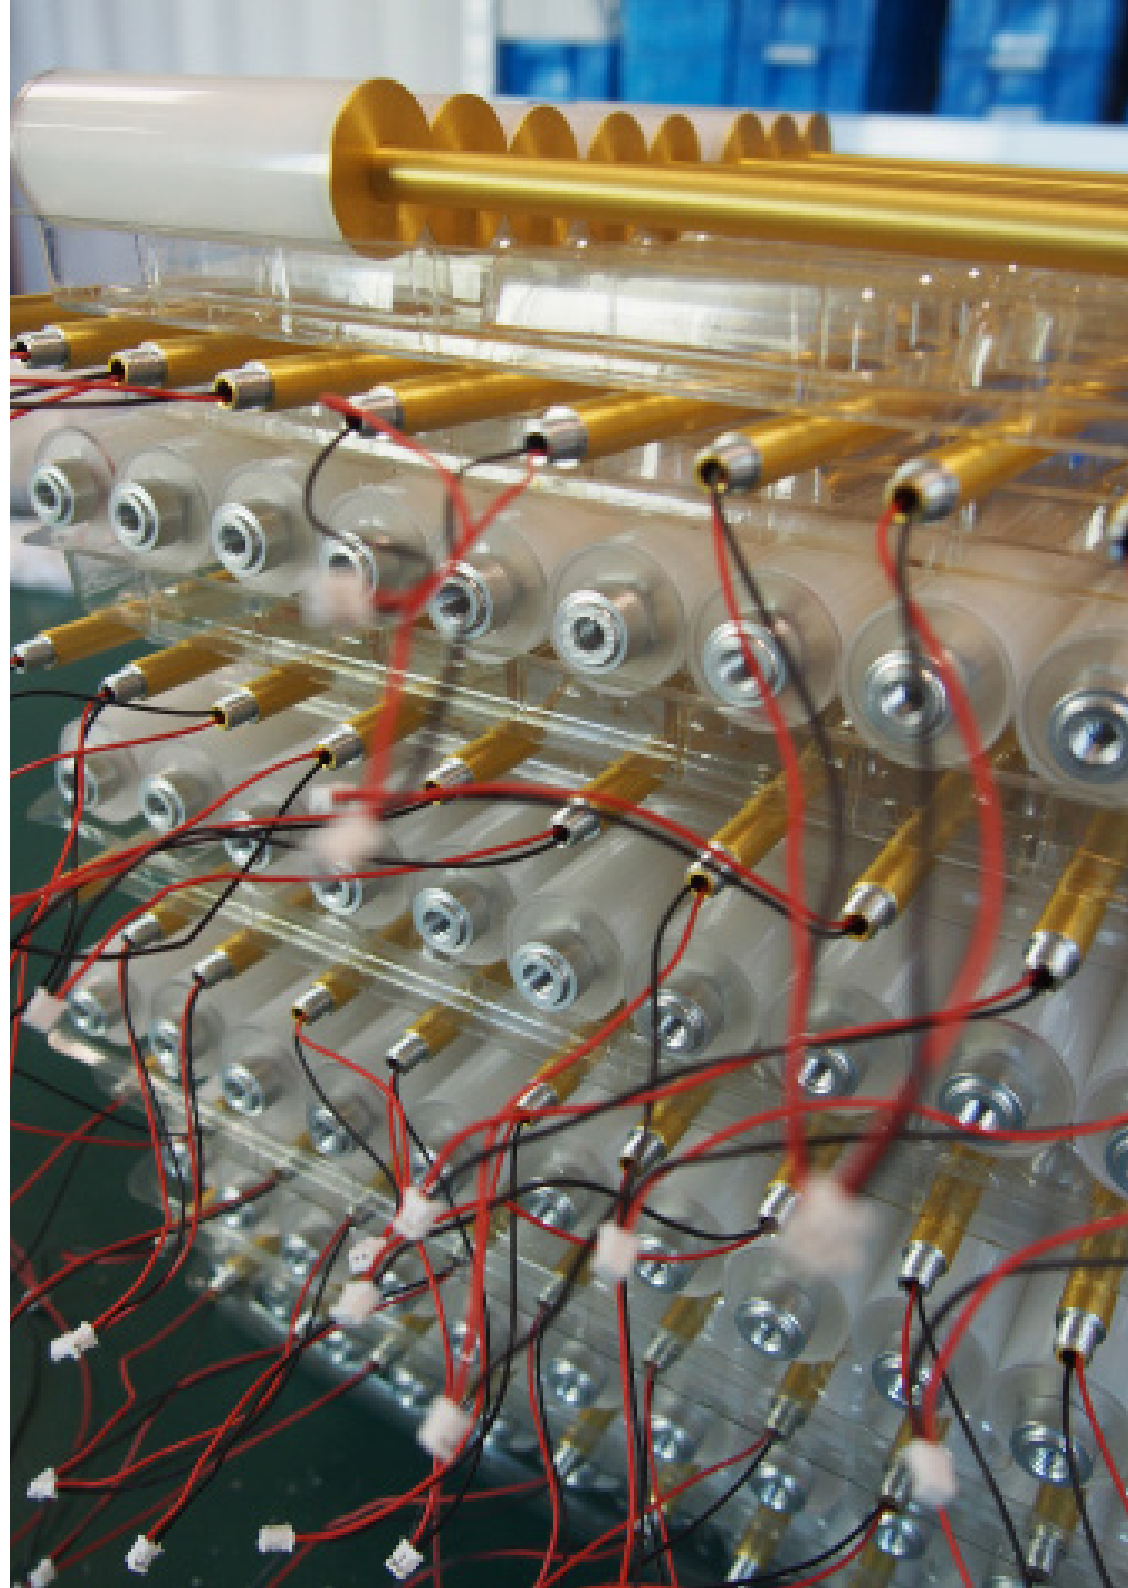

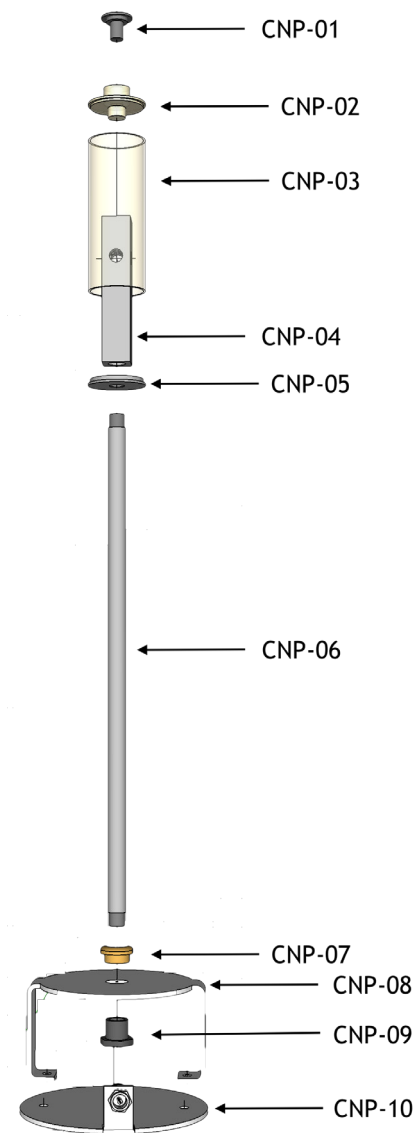

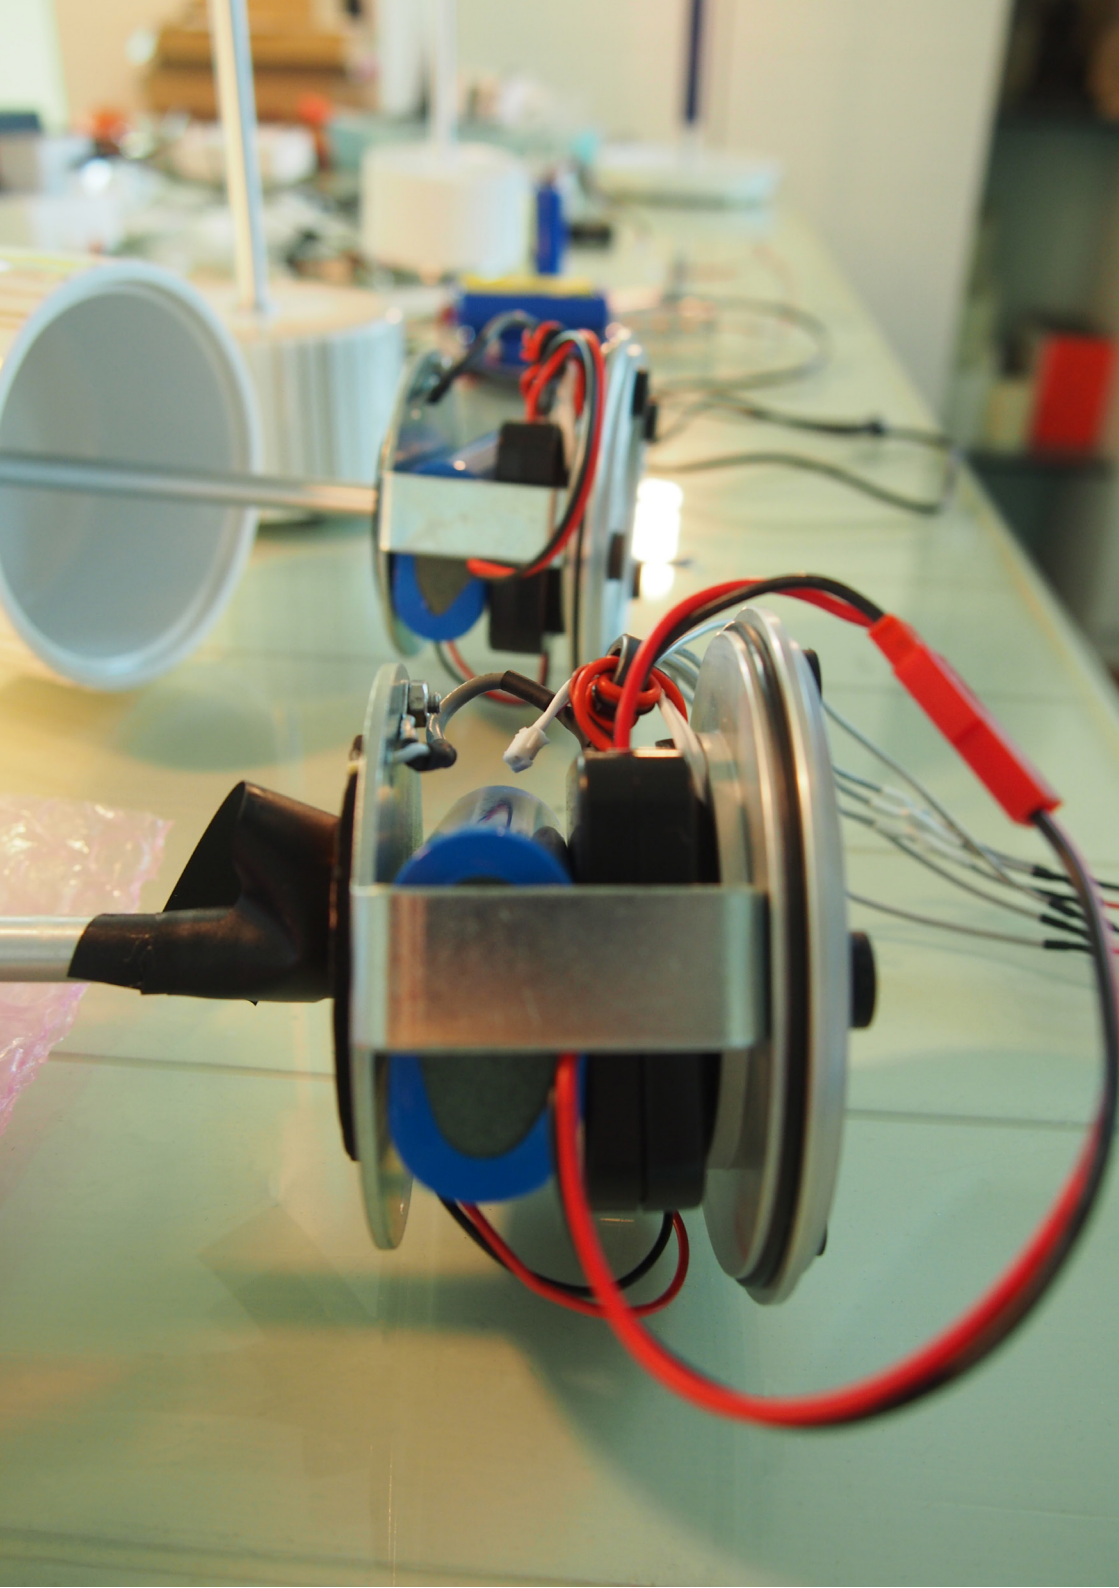

manufactureassembly

thanks to our presence in China, we offer our customers great flexibility in the manufacturing of their products.

our wide field of activities allows us to produce all the elements of a light fixture, may those be in metal or composite.

we can subcontract the manufacturing of semi-finished products and integrate electronics.

Campanule
model et porcelain by
BERNARDAUD
electronics and mechanics
developed by
jadeLink and HISLE

thorough study of light fixtures' manufactyr-
ing, from the technical drawings, the proto-
types to the first mass production

qualitycontrol

our quality control specialists are trained to test the products on the production lines as well as in our laboratory.

these tests ensure the delivery of reliable products that comply with the specifications

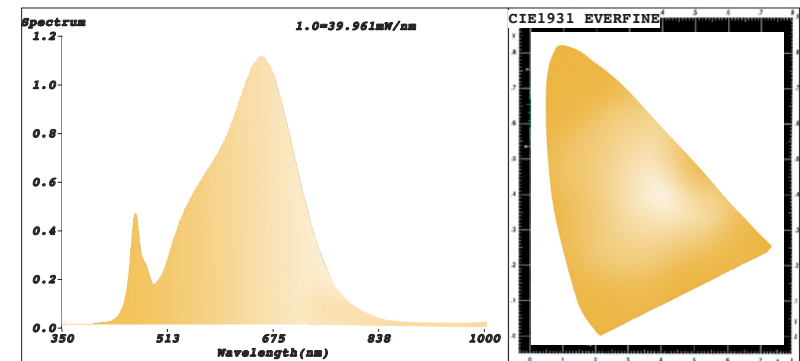

in-house tests :
photometry, tightness,
temperature etc.

Spectrum Test Report

Color Parameters:

ourteam

our team reunites people of different and complementary skills that guarantee the success of your projects may those be of small or very large scale.

whether you need specific components, modifications of existing products, lighting solutions for your luminaires or assistance on the creation of a new product, we bring answers tailored on your specifications.

our skills, responsiveness and quality are at your service.

■ Amaury de Nantes - company manager

amaury.denantes@jadelink.pro

+86 134 8668 2277

I founded in 2010 **jade**link company, based on my experience of European and Asian lighting markets. Settled in China for more than 10 years, I have held several positions in European companies specializing in the sourcing and trading of lighting solutions for professional and commercial use. I decided to develop our business towards a more personalized support mindfull of the struggled lighting designers face when creating small series.

■ Agathe Tiret - project manager

agathe.tiret@jadelink.pro

+86 183 6828 2077

trained at Paris Boulle school to bronzier d'Art work, I specialized in lighting design once I joined a Parisian company renowned for its monumental luminous creations custom-made for the luxury hotel industry. For almost four years I was in charge of the technical development, manufactured myself small series and one of a kind projects and, oversee their installations overseas.

Now based in China alongside with **jade**link team, I am the interlocutor of our Western customers.
